A Few Facts About the Russians.

The arrival of a large fleet of Russian

ships in New York, and at this peculiar

moment, has awakened public attention

to the country it represents. Some au-

thorities assert that it occupies more than

the seventh, others, the third part of the

habitable globe. It has a population of at

least 100,000,000. We might

imagine a geographical description of

the area, which would surprise perhaps our

best informed readers; we could speak

of its growing possessions on the Pacific

coast; of its vast internal resources,

and its moderate policy towards its

neighbors, and its land-holders, now

liberalized from ancient restrictive

customs; but it is sufficient for our

purpose to refer to the condition of

the country and literature as now

described by recent travelers,

among whom our countrymen have

been numerous. Collins' description of

his tour down the Amoor is perhaps the

latest we have from any American, and

it represents the Russians as a

friendly, hospitable people; and

particularly friendly to the United

States. The country watered by this

great river is already the seat of

Meade and Lee.

The recent movements in the federal and rebel armies, in the vicinity of Washington, still remain in the fog, but the probabilities are that Lee attempted to get between Meade and Washington, and was prevented by the sudden and skillful retreat of our forces. Having failed in his object, Lee will, very likely, retire towards Richmond, as this is not a good season of the year for roads into the northern states by southern troops.

The Vote of the Soldiers.

There can, hereafter, be no doubt of the sentiment of the army in relation to pending political questions. Even the most bigoted and unscrupulous copperhead must admit that those who fight our battles are opposed to the copperhead policy of entering the rebellion—that is, submission to the rebels by armistice and compromise. Eighteen Iowa regiments and batteries, heard from vote as follows: Stone 4,174; Tuttle 761. The Ohio soldiers have, as far as heard from, voted as follows: Brough 23,428; Vallandigham 5841. The rebel prisoners at Camp Chase, Columbus, held an election, at which Vallandigham received 1,079 votes, and Brough 2. The rebels know their friends, but no better than the Union soldiers in the field.

Maximilian accepts with Conditions.

By the last foreign arrival we learn that the Archduke Maximilian has received the Mexican deputation which came to offer him the throne of Mexico. He tells them that he accepts with the conditions that he shall receive the universal vote of the Mexican people, and guarantee of the recognition and support of England and France. If there is a fair vote of the people there is not the least danger that he will be elected Emperor, but with the example of the Bonapartes before us, it is easy to see how an election is made unanimous. Before the question can be decided by the people events may transpire which will make it a more dangerous or impossible. Should our rebellion be closed up within the next three months by the defeat of the rebels, France and her Austrian cat-paw may find it convenient to withdraw without an election.

Beloit Supervisor.

By an oversight we have neglected to put the name of M. A. Northrup, Esq., into the ticket under our editorial list of the candidates for supervisor in the Beloit district. He was nominated by the convention which nominated Mr. Merrill for the assembly. Mr. Northrup has had much experience in the old county board, and has been repeatedly entrusted with important public duties by his numerous constituents. He is amply qualified, and would make an excellent representative of the district.

Telegrams.

Our report today mentions several items of special interest to Wisconsin readers. C. A. Fairchild has been promoted to brigadier-general for his bravery and merit. A timely tribute to an excellent officer and deserving man. Gen. King has resigned his commission in the army and started as minister to Rome. Gov. Salomon has been successful in his persevering efforts to obtain credit in the coming draft for the surplus of volunteers in this state. Wisconsin has truly a faithful friend in Gov. Salomon.

Bricks of the 100th Brigade.

It is stated that the old 100th Brigade, to which our 21st and 7th regiments will probably return home when the Army of the Potomac goes into winter quarters. They received the campaign has already closed by the retreat of Lee, we shall all have the pleasure of seeing them wear our veterans in our midst. They ought to have a public recognition, commensurate in some degree with their services and heroism. The preparation is now going on in the army, having fought more battles than any other brigade in the army. Their time must be within six or seven months of expiration, as they were among the first that enlisted.

The Capture of the Steamboat Burners.

We are permitted to copy the following account of the capture of three of the villains who have been engaged in burning steamboats on the Mississippi river, under the pay of the rebel confederacy. The letter was written by Lieut. George Butt, of the second Iowa cavalry:

MEMPHIS, Oct. 12, 1863.

Dear Mother:—On Saturday last the monotony of camp life at Memphis was broken by an order from headquarters to leave that night with one day's rations. The curiosity and inquisitiveness of the soldier is always made manifest on such occasions, and this time there was no lack of it, as it had been some time since we had had a night adventure. Each and every one, I think, questioned me as to where we were going and what we were expected to do. The only answer I was able to make was that they were expected to obey orders and ask no questions. As soon as night had fairly set in we went into the saddle and were off. The night was dark and the roads very rough; we pushed rapidly and silently forward until 2 o'clock, when the column halted, and the colonel called the officers to the front to give them instructions and assign them positions; as we were then within half a mile of Hernando, the object of our adventure was then made known. You have of course noticed with pity and horror the many accounts of the destruction of our steamers on the river by fire, the work of some fiend in human shape. From information received by our government it was decided that these devils incarnate were employed by the bogus confederacy. Having arrived at this conclusion the next step was, if possible, to catch the individual parties engaged in this despicable work. On Saturday last a man arrived here from Nashville and reported to the General that he was in the employ of these boat-burners. They were to pay him \$200 in gold, or \$270 in greenbacks, for every boat he fired. They gave him money at Nashville to pay his passage with the understanding that he was to burn

the boat. Instead of doing this he reported to the General, and told him that four of the parties were citizens of Hernando, Miss., consequently he ordered us to go through in the night to make sure of the game.

After the Colonel had given us our instructions we waited until just as day was breaking, we dashed into the town and in less than five minutes we had it completely surrounded, so that a mouse could not have escaped without a lead compliment had followed close in his wake. One company was detailed to search the houses, with instructions to bring every male citizen to the court house, in order that the individual who gave the information might identify the parties, as he accompanied us for that purpose. Inside of an hour we had three of the parties (the fourth not being at home), and were on our way back to camp 26 miles distant. We moved about five miles, halted to feed and take a lunch, just got comfortably to eating when a company of rebels dashed up in the rear and commenced to bang away at us. We settled their hash in a few minutes; finished our lunch and moved on to camp, which we reached at three p. m., having marched upwards of 60 miles in 20 hours.

I am in hopes the authorities will make short work of these individuals. I don't know as I ever wanted to shoot a powerless man, before, since I have been a soldier, but I could have shot all three of those without any compunctions of conscience whatever. We claim a little—just a mite—of credit, for catching these fellows. I hope nobody will begrudge it us.

There is fighting all along the road from here to Corinth. The rebels get the worst of it all the time. They have not as yet succeeded in interrupting communication to any extent.

This is election day with us—I am thinking when the returns from the Iowa soldiers are published it will make copperheads quake in their boots. I am officer of the picket guard this morning; my time is most up. Good bye; my kind regards to all friends. Also will write a few lines. Your affectionate son, "GEORGE."

REPORTED FOR THE DAILY GAZETTE BY TELEGRAPH.

Last Night's Report.

WASHINGTON, Oct. 17.

The proclamation for volunteers meets with much favor. It will be demonstrated, by the time congress meets, if it is feasible, and if not, the conscription law will not be recommended for change by the authorities.

Gen. Rufus King has been appointed Minister to Rome. He yesterday, turned over his command in the army to General Goehring, issued a farewell order, and set out for his post.

The rumor that the rebels have crossed into Maryland, is without confirmation. One theory is that Lee is foraging in the Shenandoah Valley.

It is said that a general order will be issued by the war department in a few days, providing for the substitution of colored troops in the states of Maryland, Kentucky, Missouri, Western Virginia, and Tennessee. All loyal owners will be allowed \$500 for each slave that may enlist; the slave to be free at the expiration of his term of enlistment. The slaves of army officers will also be enlisted, but they will not be paid for them.

Gov. Salomon, of Wisconsin, is here, and has succeeded in having the quota of volunteers credited to his state in the draft that is to be made.

It has been concluded that the draft shall be carried out in the western states, but each one is to be credited with its supply of volunteers, and the draft is to be made accordingly.

The following is a copy of a letter from Mr. Mason to J. F. Davis, and was found among the papers, and correspondence of the latter. It plainly shows the treasonable purpose of the water at the time: "My Dear Sir: I have a letter from Wey, of the 27th, full of praise. He says the Governor of North Carolina, South Carolina and Louisiana have already agreed to the rendezvous at Raleigh, and others will. This is in your most private ear. He says, further, that he had officially requested you to exchange with Virginia, on fair terms of difference, percussion for flint muskets. I don't know the usage or power of the department in such cases; but if it can be done, even by liberal construction, I hope you will accede. Was there not an appropriation at the last session for converting flint into percussion arms? If so, would it not furnish good reason for exchanging such facilities to the states? Virginia probably has more arms than the other southern states, and would divide in case of need. In a letter, yesterday, to a committee in South Carolina, I gave it as my judgment, in the event of Fremont's election, that the south should not pause, but proceed at once to immediate, absolute, and eternal separation. So I am a candidate for the first ballot. Wise says his accounts from Philadelphia are cheering for old Back in Pennsylvania. I hope they be not delusive."

(Signed) "J. M. MASON."

BALTIMORE, Oct. 19.

Special to Chicago Tribune.—The condition of affairs generally with Meade's army is highly satisfactory. He has foiled the rebels in all their attempts to surprise and outflank him. There has been no general engagement. The guerilla has been troublesome and captured sutlers' wagons.

Dispatches from Harper's Ferry to-day say all is quiet there. At Martinsburg, along the entire line of the railroad, trains are running with usual.

WASHINGTON, Oct. 19.

Accounts from the army of the Potomac say there are no tidings of Lee's whereabouts, as he has recently materially changed his position. Such dispositions have been made of our own army as will meet all contingencies.

There is no truth in the report that Gen. Meade's army is within the defenses of Washington.

Heavy firing of artillery was for an hour or two heard this morning in the direction of Manassas.

This following was received at headquarters to-day: "CHATTANOOGA, Oct. 18.

To Major General H. W. Halleck:

The following dispatch has just been received from Brig. Gen. Geo. Crooks, commanding the 23rd Cavalry division: "We have in the neighborhood of 1000 men, and have had three fights with the enemy since I left Sequatchie Valley, whipping him very badly each time. The last battle ended at

Farmington, Tenn., where I fought Washburn's central command with two brigades. I cut his force in two, scattering a large part of it, capturing four pieces of artillery, one thousand stand of cavalry arms, and two hundred and forty prisoners besides the wounded.

As I pushed on after the enemy immediately I have not been able to ascertain the number of their killed and wounded; but it was very large. They were scattered over a distance of sixteen miles from this place.

Their retreat was a perfect rout. Their men were deserting and straggling over the country. I pursued them with great vigor, but the rebels being better than we, I was only able to come up with two regiments at Sugar Creek, left to detain my passage. I made a charge on them, capturing some fifty, and scattering the remainder in the mountains.

I reached the river, and found they had all crossed at a ford some three miles above Sams' Ferry, where they commenced to cross. I never saw troops more demoralized. I am satisfied their loss in the raid was not less than 2,000. No rebel need be entertained of their making another move. (Signed) Geo. Crooks, Brig. Gen. Com. W. S. ROSS, Major Gen.

The rebels are in full retreat into Virginia. Shackford is at Bristol. At present at Loudon. Parson Brownlow and Horace Maynard arrived to-day.

FORTRESS MONROE, Oct. 19.

The Richmond papers of yesterday have the following highly important news: "LYNCHBURG, Va., Oct. 16.

Twenty-seven regiments of Yankee cavalry, and mounted infantry, estimated at 40,000 men, passed Gaeville Tennessee, bound eastward, to make a raid on the Virginia and Tennessee railroad, and attack our forces at Biddle Ridge, six miles west of Greenville, on Saturday, the 10th. Our forces withdrew to Henderson's, ten miles east of Greenville. The enemy having succeeded in reaching our rear, our forces fell back to Zulloff's, and the Yankees, newly reinforced, advanced upon them, when they were withdrawn to Bristol. Our loss in both days fight was 300 killed and wounded. Our wounded fell into the hands of the enemy. On Wednesday night the enemy arrived at Bristol and are reported to have advanced towards Abingdon with a heavy force supposed to number from 8,000 to 10,000.

Joe Hooker is in command of the Tennessee. Burnside has left, having resigned, or been dismissed. These regiments of Tennessee regulars have been organized, and 100 troops are following the Yankee army. The enemy destroyed no property in east Tennessee, as they expect to hold the country permanently.

MORNING DISPATCHES.

NEW YORK, Oct. 20.

Herod's speech.—It is not quite generally settled that the rebels are taking towards the Rapid, and our army is being pushed back by them. Constructive trains have run as far as Brown's station, and tomorrow supply train will run to or beyond that point. The bridge at Bristol was burned by the rebels. The track between Martinsburg and Gettysburg is almost wholly cut up by them. Slight skirmishing today does not indicate that a general engagement is probable, and the campaign, except the pursuit of the fleeing rebels, may be considered closed.

WASHINGTON, Oct. 12.

Yesterday White's and Meade's army, numbering about 1,000 men, came down from Abingdon, near Centerville, taking the Eying Pass road, and entered the mountainous country of the Shenandoah Valley, and came down within a mile of the bridge and fired into the rebels on the hill. Several others were killed, and together with six men of the 13th New York cavalry, and a number of wagon drivers, our cavalry were sent in pursuit, and overtook them in a brief fight, in which the rebels were killed and driven with considerable loss.

WASHINGTON, Oct. 12.

The Secretary of War returned this morning from his interview with Gen. Meade at his headquarters in the army. Military authorities have not reached any positive conclusion as to either the strength or position of Lee's army. Our cavalry find the enemy in every direction, but their main body has been effectively concealed. One opinion entertained is that Lee has retreated behind Bull Run mountains and falling back towards his entrenched position on the Rapid, but some of the most experienced officers here believe the principal part of his army have been sent in the direction of Harper's Ferry and Winchester, with a view of covering and supporting a possible extensive cavalry raid into Maryland and Pennsylvania.

IS THE FIELD, Vc., Oct. 19.

Yesterday a reconnaissance was made by Col. Chapman and a portion of the 1st New York cavalry division, composed of the 8th Illinois and 6th New York cavalry regiments. Col. Chapman, with a detachment of his own cavalry, was accompanied by the 8th Illinois and 6th New York cavalry regiments. It was discovered that Stuart with his cavalry had passed the day before in the direction of Abingdon, and yesterday towards Leesburg. It is believed they are en route for Maryland.

As ascertained this morning, the rebels are building up along the railroad track from Manassas toward the Rappahannock, thus destroying the rails and rendering the road unfit for use, and also destroying all the bridges along the route. It is almost conclusive that this movement of Lee's is to deceive Meade by leading him to expect a raid on a large scale, while the real design is to keep Meade from advancing his forces, the rebels in the meantime hurrying reinforcements to Bragg.

From the Richmond Sentinel of the 13th we understand that in consequence of the action of the British consuls relative to foreigners enlisted in the confederate service, the president has felt it his duty to dismiss them all from the confederacy.

A Washington dispatch to the Herald says Col. Lucius Fairchild, of the 21st Wisconsin regiment, was to-day made brigadier-general for gallantry in the battle of Gettysburg.

The Tribune has the following important announcement in its editorial column: "We understand upon reliable authority that Washington who seems trustworthy, that Rosecrans is about to be removed from the Army of the Cumberland. His successor is not yet publicly named."

The Rebel Attempt to Blow Up the New Ironclads with a Torpedo.

Correspondence of the N. Y. Tribune.

CHARLESTON, Oct. 10, 1863.

At half-past nine o'clock on Monday night the quartermaster on watch aboard the New Ironclads reported to the officer of the deck a suspicious craft, with smoke, and very low in the water, making directly toward the vessel. The night, although clear, and the sky studded with stars, was nevertheless unusually dark and our boats could be distinguished only by the stranger except the smokepipe and low hull, the latter extremely indistinct; the approach to be estimated at a speed of seven knots an hour. How she could have passed our picket boats was a question to be considered, for it was just possible she might be going to us, and if so, upon her, without further delay, a shot was fired, and the vessel, after a short chase, was seen to be a small boat, and not a torpedo boat, as was at first supposed. The vessel was then seen to be a small boat, and not a torpedo boat, as was at first supposed. The vessel was then seen to be a small boat, and not a torpedo boat, as was at first supposed.

"I HOPE TO SEE THE DISGRACEFUL ASSAULT UPON AMERICAN RIGHTS IN THE PERSON OF VALLANDIGHAM, CULMINATE IN HIS FLEETING TO THE OFFICE OF GOVERNOR OF OHIO."  
A CORRECTION—Sergeant General Wolcott not captured.—The Madison Journal says: It is not true, as has been stated, that Dr. Wolcott and some of the surgeons sent forward from this state, were captured by the rebels. All of the assistants remained at Nashville in attendance upon the wounded. Dr. Wolcott walked 40 miles, by a short route to Chattanooga, and sent his luggage by an ammunition train—this train being captured, the excellent surgeon general remained some time at Chattanooga, lending his valuable assistance in the performance of secondary operations upon the wounded. The whole party has safely returned north.

**What the Loyal Men are Doing?**  
Less than two weeks intervene between now and the election. What are loyal men doing? Have poll lists been prepared? Has each neighborhood been thoroughly waked up? Have arrangements been made for getting out every voter who will vote true to his country? If not, it is high time these necessary preparations were made. There is no longer time for delay. A FULL VOICE is essential, and to this end every effort should be directed. Let the people turn out to the support of the government. A victory in the elections is as necessary as a victory in the field. All the sacrifices of comfort, blood and life in the army will be in vain, if the government is not sustained at home. Arouse, then, and while our armies are combating rebels at the south, let patriots defeat the copperheads and traitors in the north.

**Military Matters.**  
The removal of Gen. Rosecrans from the command of the army at Chattanooga excites considerable surprise. It must be for military reasons alone, as the public and the army have not lost confidence in him on account of the failure to defeat Bragg reinforced by a corps or two from Lee's army. It is not the first failure in our military management, and if all our generals who have been worsted in encounters with the rebels had been immediately superseded, we should have very few remaining of these cow in the field. Even the general-in-chief, Halleck, would have let us about the time when he besieged Beauregard at Corinth so long, and was fooled at last. The suspicion is gaining ground that the removal of Rosecrans grows out of a misunderstanding with Halleck. The appointment of Gen. Grant to command the two departments of the Cumberland and Tennessee will be received with favor, as it is evident that the military movements in the territory of which they are comprised should be under one direction and control.

The doubts about the whereabouts of Lee and his army have been resolved; he is retreating towards Gordonsville, tearing up the railroad as he goes, and Meade is said to be in "hot pursuit." If Lee should face about we suppose Meade would in turn retreat towards Washington; but there is little danger of this as Lee has heard that Burnside has invaded Virginia from the southwest, and is within 175 miles of Lynchburg, retreating his army rapidly from the loyal mountain population of that region. Rebel railroad communication with the southwest is in danger, and possibly Richmond itself may be menaced from that direction. Hence Lee's retreat, and not because he is afraid of Meade or Halleck, or any body at Washington.

Gen. Blunt has been ordered to St. Louis, from the army of the frontier, and is succeeded by Gen. McNeill. Blunt has the merit of driving the rebels further, and being often successful with limited means, than any other commander now in the field. He is to be tried by court martial, we understand, for disobedience of orders. Gen. McNeill, who succeeds him, has the reputation of a fighting man, and will have little mercy on the desperate bushwhackers who infest the frontier.

There is an important gathering of troops under Gen. Sherman along the line of the Memphis and Charleston railroad, which will soon flank Bragg or have a fight with Joe Johnston, and perhaps both.

**The Elections.**  
The result in Ohio will not vary much from 62,000 majority for Brough on the home vote. The soldiers' vote will probably increase Brough's majority to nearly 100,000.

The Pittsburgh Gazette gives a table of the result in most of the counties in the state, and estimates those yet to be heard from on the vote for Curtin and Foster, in 1860, with due allowance for local causes, and makes the majority for Curtin in 1863 the glorious one of 22,270. No provision has been made for taking the vote of the Pennsylvania soldiers in the field, or this majority would be more than doubled.

Iowa gives a Union majority of 25,000. These glorious results are examples for Wisconsin. Let us imitate them so far as possible.

**Second District.**  
The convention for the second district, held Tuesday, in Milton, nominated T. H. Goodhue, of Lima, for the assembly, and Cyrus Bliss, of Harmony, for supervisor. Both of these nominations are in the No. 1 class. Mr. Goodhue is one of those sound, reflecting, intelligent men who always know what they are doing, and why they are doing, and, as a consequence, are almost universally right. He has capacity to decide right, and the firmness to act right, when the decision is made. Mr. Bliss, too, comes into the same class of men, while his experience as a member of the county board will be peculiarly valuable, no other member of the board being in nomination, and he having a full knowledge of all the business which has been before it the last two years. **Important Military Change.**  
From a gentleman who came through from Cincinnati, yesterday, we learn that Gen. Grant and staff were at Ohio, on Saturday night, en route for Louisville. Lieut. Col. East, of the 29th Illinois, late of Grant's staff, accompanied the party. From Colonel Kent, our informant learned that Grant would probably be ordered to the command of the army of the Cumberland, vice Gen. Rosecrans, removed. We also learn that the three departments, the Cumberland, the Ohio, and the Tennessee, will be merged into one under the immediate command of Gen. Grant. What disposition will be made of Gen. Rosecrans and Burnside, we are not advised.

**What the Loyal Men are Doing?**  
Less than two weeks intervene between now and the election. What are loyal men doing? Have poll lists been prepared? Has each neighborhood been thoroughly waked up? Have arrangements been made for getting out every voter who will vote true to his country? If not, it is high time these necessary preparations were made. There is no longer time for delay. A FULL VOICE is essential, and to this end every effort should be directed. Let the people turn out to the support of the government. A victory in the elections is as necessary as a victory in the field. All the sacrifices of comfort, blood and life in the army will be in vain, if the government is not sustained at home. Arouse, then, and while our armies are combating rebels at the south, let patriots defeat the copperheads and traitors in the north.

**Military Matters.**  
The removal of Gen. Rosecrans from the command of the army at Chattanooga excites considerable surprise. It must be for military reasons alone, as the public and the army have not lost confidence in him on account of the failure to defeat Bragg reinforced by a corps or two from Lee's army. It is not the first failure in our military management, and if all our generals who have been worsted in encounters with the rebels had been immediately superseded, we should have very few remaining of these cow in the field. Even the general-in-chief, Halleck, would have let us about the time when he besieged Beauregard at Corinth so long, and was fooled at last. The suspicion is gaining ground that the removal of Rosecrans grows out of a misunderstanding with Halleck. The appointment of Gen. Grant to command the two departments of the Cumberland and Tennessee will be received with favor, as it is evident that the military movements in the territory of which they are comprised should be under one direction and control.

The doubts about the whereabouts of Lee and his army have been resolved; he is retreating towards Gordonsville, tearing up the railroad as he goes, and Meade is said to be in "hot pursuit." If Lee should face about we suppose Meade would in turn retreat towards Washington; but there is little danger of this as Lee has heard that Burnside has invaded Virginia from the southwest, and is within 175 miles of Lynchburg, retreating his army rapidly from the loyal mountain population of that region. Rebel railroad communication with the southwest is in danger, and possibly Richmond itself may be menaced from that direction. Hence Lee's retreat, and not because he is afraid of Meade or Halleck, or any body at Washington.

Gen. Blunt has been ordered to St. Louis, from the army of the frontier, and is succeeded by Gen. McNeill. Blunt has the merit of driving the rebels further, and being often successful with limited means, than any other commander now in the field. He is to be tried by court martial, we understand, for disobedience of orders. Gen. McNeill, who succeeds him, has the reputation of a fighting man, and will have little mercy on the desperate bushwhackers who infest the frontier.

There is an important gathering of troops under Gen. Sherman along the line of the Memphis and Charleston railroad, which will soon flank Bragg or have a fight with Joe Johnston, and perhaps both.

**The Elections.**  
The result in Ohio will not vary much from 62,000 majority for Brough on the home vote. The soldiers' vote will probably increase Brough's majority to nearly 100,000.

The Pittsburgh Gazette gives a table of the result in most of the counties in the state, and estimates those yet to be heard from on the vote for Curtin and Foster, in 1860, with due allowance for local causes, and makes the majority for Curtin in 1863 the glorious one of 22,270. No provision has been made for taking the vote of the Pennsylvania soldiers in the field, or this majority would be more than doubled.

Iowa gives a Union majority of 25,000. These glorious results are examples for Wisconsin. Let us imitate them so far as possible.

**Second District.**  
The convention for the second district, held Tuesday, in Milton, nominated T. H. Goodhue, of Lima, for the assembly, and Cyrus Bliss, of Harmony, for supervisor. Both of these nominations are in the No. 1 class. Mr. Goodhue is one of those sound, reflecting, intelligent men who always know what they are doing, and why they are doing, and, as a consequence, are almost universally right.
